

Conspiracy, Compliance, Control, and Defiance: a primer on what is, and what is to be done

In this passionately-worded treatise, Andy Nowicki considers the nature of power, both political and personal. Nowicki observes the ruthless, cold-blooded, patently reptilian nature of the contemporary ruling class. Assessing this demonic claques infernal ability to keep their subjects zombified through calculated campaigns of manipulation, bribery, and sheer psychological terror (with an extended commentary on their contrived responses to catastrophic events like 9/11 and Sandy Hook), Nowicki addresses the struggles faced by the proud man who attempts to render himself immune from the maddening mesmeric machinations of totalitarian tyrants. A penetrating, shocking, and uncompromising meditation on what is, and what is to be done by Andy Nowicki, controversial scribe of the current Alt-Right scene.
