

Este libro demuestra que en el transcurso de la llamada posconvertibilidad se concreto un incremento significativo en el nivel de concentracion y centralizacion del capital en base a una notable extranjerizacion del poder economico local. Se trata por cierto de una situacion compleja. Por un lado porque la incidencia de este fenomeno se da en paralelo a un peso creciente sobre variables de indudable importancia economica (cuentas externas inflacion inversion distribucion del ingreso etcetera). Por otro porque la mayor presencia del capital extranjero verificada en la decada de 1990 y consolidada en la posconvertibilidad se asocio a una intensa centralizacion economica...
