

The Morality of Politics: The Psychology of Symbolism

The Morality of Politics delves into the psychology of symbolism based on the dark occult and esoteric teachings of the secret societies in the World. There are chapters dealing with present politics of the New World Order and the histories of the secret societies who have masterminded this plan. In this book, there are mysteries explained in the symbols of these secret societies based on rational and empirical observations in psychology, spirit and matter. This book shares with the reader the psychology of society and shows new theories of science developed by the writer. This book is written in free verse poetry.
